

SHIBUI

SPA | MILANO MARITTIMA

Open all year round from 9:00 to 20:30

“Spa” comes from the Latin *salus per aquam*, meaning “health through water.”

Our Turkish bath uses the power of gentle, humid heat to tone, drain, and detoxify the body, while helping to ease rheumatic pain and muscle tension. It is also excellent for supporting healthy respiratory function.

The Spa also features a bio-sauna. With its dry heat and natural wood aroma, it purifies the body, improves skin tone and circulation, boosts the immune system, and melts away stress and fatigue.

Soak in bubbling heated water, enjoy sensory showers with chromotherapy, and relax in our tranquil lounge area, where comfortable chaise longues and soothing herbal teas await you.

To complete your wellness journey, Shibui Spa offers a dedicated massage suite, where our attentive staff will pamper you with treatments tailored to your needs.

We only use natural, organic products: our skincare line is infused with powerful ingredients that are easily absorbed, enhancing your skin’s vitality and glow.

We believe that our skin reflects our inner well-being — and that nature is our best ally in keeping it healthy and preserving authentic beauty.

This is why choosing the right rituals and products to restore and protect your skin is the key to achieving radiant, visible results.
